### SKILLS

---

Godot 4  
Gdscripts  
Database  
Multiplayer Networking  
Team work

### EXPERIENCE

---

Gift Seller

#### 2019-2021

My City is a tourist attraction, and I sell my Locally Produced Fruit Chips door to door. This job gave me a bit of public speaking skill

Construction Worker

#### 2021-2022

While this job requires a great deal of Teamwork and Heavy Physical Labor, it was fun and gave me experience on how to build something from the ground up.

Game Developer

#### 2022-PRESENT

While looking for freelance jobs, created my own game, A Farming Simulator, in this game you can plant your crops and interact with other people in town, in this town the game have multiple feature, Chat, Player Sync, Multiplayer Roulette using Database's Cron Job, Hourly price change on crops. A Maze-able Tower Defense game. In this game players can build their own Maze or enemy's path to defend themself while building towers around the maze. My Freelance Jobs mostly include Bug Fixing other people projects and Tutoring them on Godot 4 Projects.

### EDUCATION

---

STIKI Malang

#### 2016-2021

BA in Visual Communication  
Design

---

Front-end Game Developer

**2024-2025**

In August 2024, Pixel8 hired me as their Front-end Developer for their game called [Axes Full Poker](#). I work on roughly 75% of their UI, I also do some of the table animation, such as: Hands Distribution, Card Reveal, and Chip Distribution Animation.
